

SERVANTS who lead by Affecting Others

Find quiet space in your world to sit still before the LORD who loves the Church so very much. Invite Him to a conversation... listen *at least as much* as you talk.

Raise *your* Church to Him.

How are *you* organized?

How much does your organizational thinking revolve around *positions*?

Are those positions externally focused, internally focused, both... and, if both, is there a balance?

When you report to each other as a Church, do you tend to highlight the work that is done *inside* – as you relate to each other – rather than outside, during the week... ‘on the field’?

What would it look like if you retooled your Church equipping ministry to prepare people to be on mission with Jesus in the fields He has *already* placed them? How would you have to think differently to do so?

“BEING servants... SERVING... this is HOW Jesus made disciples... [PRE conversion **and** POST conversion]... it is HOW the early Church imitated His example... It must become how YOU/I make disciples...all internally focused, positionally driven models will fail to make the kind of disciples that Jesus made/sent.”
